CRISTY BURNE

MEET CRISTY BURNE

An atom-smashing science journalist turned award-winning children's author, Cristy Burne blends science and story to find fun, inspire innovation and create positive change.

Cristy Burne has experience as a magazine editor, patent translator, garbage researcher, IT journalist at CERN (home of the Large Hadron Collider), and presenter for Science Circus Africa.

Today, Cristy works at the intersection of story, science, technology and creativity to help audiences find motivation, courage and creativity.

With 20+ years' experience as a professional speaker, Cristy speaks at dozens of events each year.

She has helped more than 100,000 people around the world to embrace creativity, resilience and confidence.

EXPERIENCE THE DIFFERENCE

Whether you need a high-energy after-lunch session or an inspiring keynote, Cristy brings her trademark humour, energy and on-stage science to every event.
